

1/10/07

Dear Shef:

As I reflect back on 2006 and look forward to 2007 and think of all the wonderful things we have to be thankful for, you are at the top of the list. Your energy, compassion, and teaching has helped touch the lives of countless young people in our area.

Thank you for your leadership and vision; you have done so much to inspire and motivate my staff, our youth, our sponsors, and especially me. Your insight and techniques are awesome. You employ the perfect mix of education and entertainment. I can say without reservation that you are among the best public speakers I have ever encountered.

In your program, you discussed that the youth of today is 60% of our population and 100% of our future. That just reminds me that you were the perfect fit for our organization. Thank you for sharing your leadership techniques and skills with all of the youth and volunteers!

I would strongly urge any organization or individual to take advantage of your services; they will be impressed with the amazing and life changing results!

Yours truly,

Bill Reagan
Executive Director
