Dear Dave:

I just wanted to let you know that your seminar was FRANTIC! You inspired me to take a look at my personal and professional life and set goals for myself. The one thing I leaned and use on a daily bases is to be more positive and take things out of my backpack. During your seminar I was really excited to go back to my office and tell everyone about what you talked about. The VIP session was helpful to realize others are dealing with the same challenges I do.

Thank you for taking the time to spend with our staff as well. Your advice on how to relate to upper management was helpful.

I look forward to see you again.

Best Regards,
